## ORGANIZED BY

EU-Indonesia Business Network  
c/o EKONID  
Jl. H. Agus Salim No.115  
Jakarta 10310  
Indonesia

*As the largest archipelagic country in the world, Indonesia's maritime sector is a major driver of the national economy*

## UNDERSTAND THE SECTOR POTENTIAL

- Indonesia's strategic location: over half of all international shipping goes through Indonesian waters
- Maritime sector contributes 20% of the nation's GDP (US\$ 880 billion)
- The Indonesian shipbuilding industry is forecasted to record 10% growth. Between March 2005 and November 2013, the number of Indonesian vessels increased from 6,041 to 12,774
- 70% of the components used for shipbuilding are imported
- 90% of Indonesia's internationally traded goods are processed by foreign shipping companies

## BENEFIT FROM OUR PROGRAM

- Meet potential business partners
- Introduce your products
- Visit the largest ports, shipyards and shipping companies in Indonesia
- Meet the government officials and industry leaders to learn about various regulatory procedures and policies in the Maritime sector
- Learn about the current Maritime sector and developments taking place
